

LOCATION OF nCode DARLEY DALE LAB.

Here are maps and contact details for the nCode Fatigue Test Laboratory at Darley Dale:

nCode International Ltd.,
Unit 20a MOLYNEUX BUSINESS PARK,
WHITWORTH ROAD,
DARLEY DALE,
Near MATLOCK.
DERBYSHIRE. DE4 2HJ.

Tel: 01629 735821

Fax: 01629 735822

1. Travelling from the M1.

Take the A610 Ripley turnoff at Junction 26 on the M1 and go West as for Ripley. Follow this road and directions for Matlock, which will guide you onto the A6. Once on the A6 go through both Matlock Bath and Matlock until you reach the roundabout just on the exit from the latter. This is shown on the sketch map (Figure 1) and can be followed on the copy of the road map (Figure 2). Take the A6 Bakewell exit on this roundabout and follow the road, noting the landmarks shown in Figure 1, until you reach the Whitworth Road turning. This is opposite the small Post Office (small red oval sign with yellow lettering on it, marked "P.O." in Figure 1). A very short distance after turning right into Whitworth Road you will see the entrance to the Molyneux Business Park, again on your right. Turn in there and then left immediately. Follow this road around and you will see nCode's unit on the right at the far end.

2. Travelling from Sheffield.

Go out of town on the Sheffield Parkway (A57) until you get to the Sheffield Ring Road (A6102). Turn onto it and follow it until you reach the Chesterfield Road (A61). Follow this until you reach Chesterfield. In Chesterfield you should follow the route markings for Matlock and get onto first the A619 and then the A632. About 2 miles along the A632 you should see a turning to the right labelled B5057, Darley Dale. Take that and follow the road into Darley turning right again when you join the A6. This is the staggered junction marked in Figure 1. You are then half a mile from Whitworth Road.

3. Travelling from Bakewell

Take the A6 as for Matlock. You will come to a 90° right hand bend in the village of Rowsley with the turning for the B6102 on the apex. (The Lab is about two miles from this bend.) Continue along the A6 and you will see the signboards for Darley Dale about half a mile from the bend. After three quarters of a mile the large Firth Rixson works appear on your right with a small independent filling station across the road from it. A further mile along the A6 after the Firth Rixson works you will see a small Post Office on your right (small red oval sign with yellow lettering on it, marked "P.O." in Figure 1) and a turning on your left opposite it. This turning is Whitworth Road; turn into it and then turn right into Molyneux Business Park. (NOTE: Immediately after Whitworth Road on the A6 is the pub called The Grouse Inn as shown in Figure 1, so if you pass the Pub coming from this direction you've gone too far!!)
