Interacting with displays

The image shows a software interface with a toolbar at the top containing various icons for navigation and editing. Below the toolbar is a file browser window titled 'Available Data' showing folders for 'ASCII Files' and 'Excel Files'. A dialog box titled 'XY Display Control Summary' is open in the foreground, listing various control actions and their corresponding keyboard shortcuts. The dialog box has a title bar with a question mark and a close button. At the bottom of the dialog box is an 'OK' button.
